#### INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and City Council City of Stanton P.O. Box 370 Stanton, TX 79782-0370

# **Report on the Audit of the Financial Statements**

# **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Stanton, Texas, as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the City of Stanton's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Stanton, Texas, as of September 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Stanton, Texas, and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# **Emphasis of Matter**

The City adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 96, *Subscription-Based Information Technology Arrangements*, described in Note I., O. to the financial statements. Our opinion is not modified with respect to this matter.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

The Honorable Mayor and City Council Page 2

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Stanton's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Stanton's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Stanton's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and net pension liability and contributions information and net OPEB liability and contributions information for the Texas Municipal Retirement System be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Honorable Mayor and City Council Page 3

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 2, 2024, on our consideration of the City of Stanton's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Stanton's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Stanton's internal control over financial reporting and compliance.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Stanton's financial performance provides an overview of the City's financial activities for the year ended September 30, 2023. It should be read in conjunction with the City's basic financial statements and independent auditor's report.

# **Financial Highlights**

The City's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the end of the current year by \$11,715,498 (net position). Of this amount, \$5,086,356 (unrestricted) may be used to meet the City's ongoing obligations.

The City's total net position increased by \$1,671,826 or 17%. This amount consists of a \$1,680,890 increase attributable to current year operations and a \$9,064 decrease attributable to prior period adjustments described in Note IV., F. to the financial statements. The City's statement of activities shows total revenues of \$5,733,155 and total expenses of \$4,052,265.

The total fund balance of the General Fund is \$3,657,831 which is an increase of \$528,753 or 17% compared to the prior year.

# **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

**Government-Wide Financial Statements** - The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the current year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future years.

# Overview of the Financial Statements - Continued

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, streets, health and welfare, and culture and recreation. The business-type activities of the City include a water and sewer system and trash collection including a landfill site.

The component unit column of the government-wide financial statements presents the financial information of the Stanton Economic Development Corporation which is a component unit of the City. The component unit is reported in a separate column to emphasize that it is legally separate from the City.

**Fund Financial Statements** - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds** - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the current year.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Special Revenue Fund - Hotel/Motel Occupancy Tax Fund, both of which are considered to be major funds.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided to demonstrate compliance with the budget.

**Proprietary Funds** - Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water and sewer system, trash collection, and customer deposits.

**Notes to the Financial Statements** - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

# **Government-Wide Financial Analysis**

**Net Position** - A summary of the City's net position is presented below:

#### **NET POSITION**

	Governmen	tal Activities	Business-Ty	ype Activities	Totals			
		_	Septe	mber 30,	•			
	2023	2022	2023	2022	2023	2022		
Current and Other Assets	\$ 5,813,229	\$ 5,252,235	\$ 1,311,332	\$ 1,370,025	\$ 7,124,561	\$ 6,622,260		
Restricted Assets	0	165,923	0	87,131	0	253,054

Total Liabilities	\$ 838,418	\$ 716,800	\$ 2,258,274	\$ 1,329,463	\$ 3,096,692	\$ 2,046,263		
Deferred Inflows of Resources	\$ 12,296	\$ 246,222	\$ 4,635	\$ 129,300	\$ 16,931	\$ 375,522		
Net Position								
Net Investment in Capital Assets	\$ 1,557,276	\$ 1,414,595	\$ 3,968,231	\$ 3,099,703	\$ 5,525,507	\$ 4,514,298		
Restricted	1,103,635	1,086,929	0	87,131	1,103,635	1,174,060		
Unrestricted	4,112,247	3,415,063	974,109	940,251	5,086,356	4,355,314		
Total Net Position	\$ 6,773,158	\$ 5,916,587	\$ 4,942,340	\$ 4,127,085	\$ 11,715,498	\$ 10,043,672		

A large portion of the City's net position (\$5,525,507) reflects the City's investment in capital assets, less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide services to citizens within the jurisdiction of the City; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the City's net position (\$1,103,635) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$5,086,356) may be used to meet the City's ongoing obligations.

# Government-Wide Financial Analysis - Continued

**Governmental Activities** - Governmental activities increased the City's net position by \$852,121 and \$375,474 for the fiscal years ended September 30, 2023 and 2022, respectively. Business-type activities increased the City's net position by \$828,769 and \$421,357 for the fiscal years ended September 30, 2023 and 2022, respectively. Key elements of these increases are as follows:

# CHANGES IN NET POSITION

# Financial Analysis of the City's Funds

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds** - The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. The unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the current year.

The City's governmental funds reported combined ending fund balances of \$5,205,476, an increase of \$753,241 or 17%, in comparison with the prior year. These fund balances are reported in various governmental funds as follows:

General Fund \$3,657,831. Of this balance \$78,373 is assigned for future fire truck capital outlay.

Special Revenue Funds \$1,547,645. Of this balance \$1,103,635 is restricted by legislation in the Hotel/Motel Occupancy Tax Fund, and \$444,010 is assigned for special programs which includes \$26,909 in the Airport Fund, \$409,922 in the Real Estate Account Fund, and \$7,179 in the Police Department Special Fund.

**Proprietary Funds** - The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The City's proprietary funds reported unrestricted net position of \$974,109, an increase of \$33,858 or 4% in comparison with the prior year.

# **General Fund Budget**

The original and final amended budgets for the General Fund were \$3,596,459. There were no variances between the original budget and the final amended budget as shown on page 44 in the required supplementary information section of the audit report.

The City has adopted a budget for the General Fund in the amount of \$3,476,200 for the fiscal year 2024, which is a decrease of \$120,259 from the fiscal year 2023.

# **Capital Assets and Debt**

Capital Assets - Financial statement footnote III., D. discloses the City's capital asset activity for the year ended September 30, 2023.

Long-Term Debt - Financial statement footnote III., G. discloses the City's debt activity for the year ended September 30, 2023.

# **Requests for Information**

The financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Laura Walker, Finance Director, City of Stanton, P.O. Box 370, Stanton, TX 79782-0370.

# RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2023

Total Net Change in Fund Balances - Governmental Funds	\$ 748,791
Capital outlays are expenditures in the fund financial statements, but they should be shown as increases in capital assets in the government-wide financial statements.	330,077
Depreciation is not recognized as an expense in the governmental funds since it does not require the use of current financial resources.	(187,396)
Changes in the net pension liability and related deferred outflows and inflows are recognized in the government-wide financial statements but are not reported in governmental funds.	(22,364)
Changes in the total other postemployment benefit liability and related deferred outflows and inflows are recognized in the government-wide financial statements but are not reported in governmental funds.	(4,008)
Revenues from property taxes are deferred in governmental funds until they are considered available to finance current expenditures. In the government-wide financial statements, revenue are recognized when assessed, net of an allowance for uncollectible taxes.	 (12,979)
Change in Net Position of Governmental Activities	\$ 852,121

Notes to the Financial Statements September 30, 2023

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Stanton, Texas, prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America applicable to state and local governments. Additionally, the City complies with the requirements of contracts and grants of agencies from which it receives funds.

# A. Reporting Entity

The City is governed by an elected mayor and a five-member council which is elected by the public. In evaluating how to define the City for reporting purposes management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth by GASB. The component unit discussed below is included because of its operational or financial relationship with the City.

The component unit column in the government-wide financial statements includes the Stanton Economic Development Corporation. It is reported in a separate column to emphasize that it is legally separate from the City.

Stanton Economic Development Corporation - The Board of Directors are appointed by the City Council. The Corporation is fiscally dependent on the City because it is funded by sales taxes which are collected by the City.

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges for services - payments from parties that purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment of the City and (2) grants and contributions - payments from organizations outside the City that are restricted to meeting the operational or capital requirements of a particular function or segment of the City. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Interfund activities between governmental funds and proprietary funds appear as due to/due froms on the governmental funds balance sheet and on the proprietary funds statement of net position and as other resources and other uses on the governmental funds statement of revenues, expenditures, and changes in fund balance and on the proprietary funds statement of revenues, expenses, and changes in fund net position. All interfund transactions between governmental funds are eliminated in the government-wide financial statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide statement of net position.

Separate financial statements are provided for governmental funds and proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues generally result from providing services in connection with a proprietary fund's ongoing operations. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

Notes to the Financial Statements - Continued September 30, 2023

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

# C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recognized when they are earned and become measurable, and expenses are recognized when they become measurable and a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received they are recorded as unearned revenue until related and authorized expenditures have been made.

The government reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Special Revenue Fund - Hotel/Motel Occupancy Tax Fund accounts for resources that have constraints placed upon their use by legislation.

The government reports the following major proprietary funds:

Enterprise Funds - Water/Sewer Fund and Water/Sewer Construction Fund. These funds account for the operation of the City's utility systems and trash collection.

Additionally, the government reports the following fund type:

Special Revenue Funds - These Funds account for resources restricted to, or committed for, specific purposes by the City. Most federal and some state financial assistance is accounted for in special revenue funds.

# D. Cash and Cash Equivalents - Proprietary Funds

For purposes of the statement of cash flows for proprietary fund types, the City considers cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition to be cash equivalents.

Notes to the Financial Statements - Continued September 30, 2023

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

# E. Interfund Receivables and Payables

Activity between individual funds may result in amounts owed between funds which are classified as Due To and From Other Funds. Other than amounts due to or from proprietary funds these balances are eliminated in the statement of net position.

# F. Receivables and Payables

Receivables are stated at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

The City believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year.

# G. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

# H. Capital Assets

Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and Improvements	15-40
Utility Systems	15-40
Furniture and Equipment	5-15

# I. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Notes to the Financial Statements - Continued September 30, 2023

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

# I. Long-Term Obligations - Continued

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# J. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's fiduciary net position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The pension expenses for the Stanton Economic Development Corporation are included in the TMRS calculations.

#### **K.** Other Postemployment Benefits

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources, and OPEB expense related to other postemployment benefits of the TMRS, information has been determined on the same basis as it is reported by TMRS.

The OPEB expenses for the Stanton Economic Development Corporation are included in the TMRS calculations.

# L. Compensated Absences

The City's policy does permit employees to accumulate unused vacation and sick leave to be paid to the employees upon separation from service. Compensated absences are recorded as expenditures when paid. No liability exists for compensated absences at year end because it cannot be determined.

Employees shall receive compensation for unused vacation as follows:

Length of Service	Vacation Allowed	Maximum Vacation Accrual
1-60 Months	10 Days	15 Days
61-120 Months	12 Days	18 Days
121 Months and Over	15 Days	22 Days

Upon termination an employee will receive terminal pay for his or her unused vacation time regardless of the reason or circumstances for termination. Terminal pay for unused vacation time is limited to the maximum authorized accrual level and the payable is based on the existing hourly salary in effect at the time of termination.

Notes to the Financial Statements - Continued September 30, 2023

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

# L. Compensated Absences - Continued

For the purpose of terminal pay no employee shall receive compensation for unused sick leave except as follows:

	Maximum
Length of	Sick Leave
Service	Allowed
0 to 1 Year	0 Days
1 to 2 Years	2 Days
2 to 3 Years	4 Days
3 to 4 Years	6 Days
4 to 5 Years	10 Days
Over 5 Years	15 Days

# M. Net Position on the Statement of Net Position

Net position on the statement of net position includes the following:

Net Investment in Capital Assets - This component of net position represents the difference between capital assets net of accumulated depreciation and the outstanding balance of debt, excluding any unspent debt proceeds, which is directly attributable to the acquisition, construction, or improvement of those assets.

Restricted by Legislation - This component of net position represents the difference between assets and liabilities of the Hotel/Motel Occupancy Tax Fund that consists of assets with constraints placed on their use by state legislation.

Unrestricted - This is the difference between assets/deferred outflows of resources and liabilities/ deferred inflows of resources that is not reported as Net Investment in Capital Assets, Restricted for Pension Benefits, or Restricted by Legislation.

# N. Fund Balances/Equity

In the fund financial statements, governmental funds report the following classifications of fund balance:

Restricted - Amounts that can be spent only for specific purposes because usage restraints have been imposed by external sources such as creditors (through a debt covenant), grantors, contributors, or laws or regulations of other governments.

Assigned - Amounts that are intended for a specific purpose but do not meet the definition of restricted or committed. The intent can be expressed by the City Council or by a Council designee.

Unassigned - Amounts that have not been assigned to other funds or restricted, committed, or assigned to a specific purpose within the General Fund.

The details of the fund balances are included in the governmental funds balance sheet.

Notes to the Financial Statements - Continued September 30, 2023

#### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

# N. Fund Balances/Equity - Continued

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council has provided otherwise in its commitment or assignment actions.

Unrestricted net position for proprietary funds represents the net position available for future operations.

# O. Implementation of New Accounting Standard

The City implemented the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements. This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). The City determined there was no impact upon its financial position, results of operations, or cash flows upon adoption.

# P. Property Tax Revenues

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all property located in the City in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed.

The City recognizes as tax revenues those taxes that are measurable and available. Measurable means the amount can be determined, and available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within the current period.

Taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles are based upon historical experience. Uncollectible personal property taxes are periodically reviewed and written off, but the City is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

# Q. Interfund Transfers

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

# II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

# A. Budget

Formal budgetary accounting is employed for all required governmental fund types and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles.

The official budget is prepared for adoption for required governmental fund types prior to the beginning of each fiscal year. The budget is formally adopted by the City Council at a public meeting held at least ten days after public notice has been given.

Notes to the Financial Statements - Continued September 30, 2023

# II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY - Continued

# A. Budget - Continued

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except Special Revenue Funds and Capital Projects Funds which adopt project-length budgets. Each annual budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles. The budget was amended by the City Council. Such amendments are reflected in the official minutes of the City Council.

# **B.** Excess Expenditures Over Appropriations

Expenditures exceeded appropriations in two functions and Other Uses - Transfers Out as shown on page 44.

# III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS

# A. Deposits and Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires the City to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the City to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers' acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also requires the City to have independent auditors perform test procedures related to investment practices as provided by the Act. The City is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the City has adopted a deposit and investment policy.

Custodial Credit Risk - Deposits: In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits and investments in certificates of deposit may not be returned to it. The City's policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits and investments, other than the following: The State of Texas requires that a financial institution secure deposits and investments made by state and local governments by pledging securities in excess of the highest cash balance of the government. The City is not exposed to custodial credit risk for its deposits since they are covered by depository insurance and pledged securities held by a third party in the City's name.

Concentration of Credit Risk: The investment policy of the City contains no limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent five percent or more of the total entity investments represent a concentration risk. The City is not exposed to this risk as described in the preceding paragraph.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At September 30, 2023, the City was not significantly exposed to credit risk.

Interest Rate Risk: Not applicable

Foreign Currency Risk: Not applicable

Notes to the Financial Statements - Continued September 30, 2023

#### III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS - Continued

# A. Deposits and Investments - Continued

At September 30, 2023, the City's investments with respective maturities and credit ratings consisted of the following:

			Weighted	
			Average	Credit
	Fair Value	Percent	Maturity	Rating
Public Funds Investment Pools				
TexPool	\$ 3,697,083	100%	25 Days	AAAm

At September 30, 2023, the Component Unit's investments with respective maturities and credit ratings consisted of the following:

			Weighted	
			Average	Credit
	Fair Value	Percent	Maturity	Rating
Public Funds Investment Pools				
TexPool	\$ 1,198,357	100%	25 Days	AAAm

# Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the Pool and other persons who do not have a business relationship with the Pool and are qualified to advise the Pool; 2) maintain a continuous rating of no lower than AAA or AAAm or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The City's investment in Pools is reported at an amount determined by the fair value per share of the Pool's underlying portfolio, unless the Pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The City's investment in Pools is reported at an amount determined by the fair value per share of the Pool's underlying portfolio, unless the Pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940.

#### **B.** Due from Other Governments

Amounts due from other governments are summarized as follows:

	Other
Hotel/Motel Occupancy Tax Fund Enterprise Funds	\$ 21,349 92,652
Total	\$ 114,001

# CITY OF STANTON Notes to the Financial Statements - Continued September 30, 2023

# III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS - Continued

# C. Interfund Transfers

Interfund transfers consist of the following:

Transfers From	Transfers From Transfers To		Purpose
General Fund	General Fund - Street Contingency	\$ 204,893	Operations
General Fund	General Fund - Fire Truck	28,322	Operations
Special Revenue Fund	General Fund	2,000	Operations

Sanitation	 53,080
Total Depreciation Expense - Business-Type Activities	\$ 235,695

#### E. Deferred Outflows and Inflows of Resources

The financial statements report separate sections for deferred outflows and inflows of resources. Deferred outflows represent an acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. Deferred inflows represent an acquisition of fund balance that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

The City has the following items that qualify for reporting in these categories:

# <u>Deferred Outflows (Statement of Net Position)</u>

Deferred loss on bond refunding, which is amortized over the life of the refunding bonds.

City's proportionate share of Texas Municipal Retirement System (TMRS) pension plan deferred outflows as detailed in financial statement footnote IV., A.

City's proportionate share of Texas Municipal Retirement System (TMRS) OPEB plan deferred outflows as detailed in financial statement footnote IV., B.

# Deferred Inflows (Statement of Net Position)

City's proportionate share of Texas Municipal Retirement System (TMRS) pension plan deferred inflows as detailed in financial statement footnote IV., A.

City's proportionate share of Texas Municipal Retirement System (TMRS) OPEB plan deferred inflows as detailed in financial statement footnote IV., B.

# <u>Deferred Inflows (Balance Sheet - Governmental Funds)</u>

Unavailable revenue - property taxes.

Notes to the Financial Statements - Continued September 30, 2023

#### III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS - Continued

# F. Unearned Revenue

Unearned revenue at year end consisted of the following:

	General
	Fund
Advancement of TDEM Funds	\$ 485,083

The City may use these funds to respond to the COVID-19 emergency or its negative economic impacts, provide premium pay for essential workers, replace lost public sector revenue, and invest in water, sewer, and broadband infrastructure. The City must return all funds not obligated by December 31, 2024, and any funds not expended to cover such obligations by December 31, 2026.

# G. Long-Term Debt

The City's long-term liabilities consist of general obligation refunding bonds, certificates of obligation, financed purchases, net pension liability, and total other postemployment benefits liability. The current requirements for the general obligation bonds and the certificates of obligation principal and interest are accounted for in the Construction Fund. The current requirements for the financed purchase principal and interest are accounted for in the Enterprise Funds. The current requirements for the net pension liability and total other postemployment benefits liability are accounted for in the General and Enterprise Funds.

The following is a summary of changes in long-term debt for the year ended September 30, 2023:

	Beginning Balance			Additions	Reductions			Ending Balance		Due Within One Year	
Governmental Activities		Building	_	11441110110				Bulune	_	3110 1 0011	
Net Pension Liability	\$	0	\$	711,531	\$	402,147	\$	309,384	\$	_	
Total OPEB Liability		42,249	_	5,387	_	13,885		33,751		-	
Totals	\$	42,249	\$	716,918	\$	416,032	\$	343,135	\$	-

Notes to the Financial Statements - Continued September 30, 2023

### III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS - Continued

### G. Long-Term Debt - Continued

The City's outstanding general obligation bond issue, which is payable from the Construction Fund, is as follows:

				Original	Amount
	General Obligation Bonds	Interest	Maturity	Amount	Outstanding
Series	Description	Rate	Date	Issued	September 30, 2023
	_				
2016	General Obligation Refunding Bonds	2%	2026	\$ 767,000	\$ 216,000
	-				

During each year while bonds are outstanding, the City is required to levy and collect sufficient ad valorem taxes, within the limits prescribed by law on all taxable property within the City as provided in the Order, to provide for the payment of principal and interest as it becomes due. If the City defaults in the payment of principal, interest, or redemption price on the bonds when due, or if it fails to make payments into any fund or funds created in the Order, or defaults in the observation or performance of any other covenants, conditions, or obligations as set in the Order, the registered owners may seek a writ of mandamus to compel City officials to carry out their legally imposed duties with respect to the bonds.

The City's outstanding certificates of obligation issue, which is payable from the Construction Fund, is as follows:

				Original	Amount
(	Certificates of Obligation (Direct Placement)	Interest	Maturity	Amount	Outstanding
Series	Description	Rate	Date	Issued	September 30, 2023
2019	Construction of Public Works and Professional Services Rendered	2.90%	2034	\$ 850,000	\$ 665,000

These certificates of obligation are secured by and payable from a pledge of the revenues of the Issuer's combined Waterworks and Sewer System remaining after payment of all operation and maintenance expenses thereof, and all debt service, reserve and other requirements in connection with all of the Issuer's revenue bonds or other obligations (now or hereafter outstanding) that are payable from all or part of the net revenues of the Issuer's Waterworks and Sewer System, constituting "Surplus Revenues."

The City's outstanding financed purchases, which are payable from the Water/Sewer Fund, are as follows:

Financed Purchases (Direct Borrowing)  Description	Interest Rate	Beginning Date	Maturity Date	Original Amount Issued	Amount Outstanding September 30, 2023
Caterpillar Compactor Caterpillar Tractor	6.989% 5.989%	5/12/2023 10/26/2023	5/12/2028 10/26/2028	\$ 632,611 545,590	\$ 503,865 440,941
Total Financed Pur	chases Payable			\$ 1,178,201	\$ 944,806

The financed purchases are secured by liens on the equipment. In case of default by the City in the payment of principal of and/or interest on the financed purchases, the lender shall have the right to one or all remedial actions in the security agreement including, but not limited to taking possession of the financed purchased property and whatever action at law or in equity may appear necessary or desirable to enforce its right.

### IV. OTHER INFORMATION

### A. Defined Benefit Pension Plan

**Plan Description** - The City participates in a defined benefit cash-balance plan administered by the Texas Municipal Retirement System (TMRS). TMRS is a statewide public retirement plan created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8 Texas Government Code, (the TMRS Act) as an agent multiple-employer retirement system for employees of Texas participating cities. The TMRS Act places the general administration and management of TMRS with a six-member, Governor-appointed Board of Trustees; however, TMRS is not fiscally dependent on the State of Texas. TMRS issues a publicly available Annual Comprehensive Financial Report (Annual Report) that can be obtained at tmrs.com.

All eligible employees of the City are required to participate in TMRS.

**Benefits Provided** - TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the Member's benefit is calculated based on the sum of the Member's contributions with interest and the city-financed monetary credits with interest. The retiring Member may select one of seven monthly benefit payment options. Members may also choose to receive a portion of their benefit as a lump sum distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the Member's contributions and interest.

**Pension Trust Fund** - The plan provisions that have been adopted by the City are within the options available in the TMRS Act. Employees can retire at age 60 and above with 5 or more years of service, or with 25 years of service regardless of age. Employees are vested after 5 years of service, but their accumulated deposits and interest must remain in the plan to receive any employer-financed benefits. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's personal account balance and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TMRS Act. Members may choose to receive their retirement benefit in one of seven payment options.

### Notes to the Financial Statements - Continued September 30, 2023

### IV. OTHER INFORMATION - Continued

### A. Defined Benefit Pension Plan - Continued

Employees Covered by Benefit Terms

At the December 31, 2022 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	9
Inactive Employees Entitled to But Not Yet Receiving Benefits	10
Active Employers	22
Total	41

Contributions - Member contribution rates in TMRS are either 5%, 6%, or 7% of the Member's total compensation, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each City is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The City's contribution rate is based on the liabilities created from the benefit plan options selected by the City and any changes in benefits or actual experience over time.

Employees for the City were required to contribute 5% of their annual compensation during the fiscal year. The contribution rates for the City were 5.62% and 5.08% in calendar years 2022 and 2023, respectively. The City's contributions to TMRS for the year ended September 30, 2023, were \$76,517, and were equal to the required contributions.

**Net Pension Liability** - The City's net pension liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

**Actuarial Assumptions** 

The total pension liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.50% Per Year

Overall Payroll Growth 2.75% Per Year, Adjusted Down for Population Declines, if Any Investment Rate of Return 6.75%, Net of Pension Plan Investment Expense, Including Inflation

Salary increases were based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees, and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a four-year set-forward for males and a three-year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate is applied for males and females, respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

### IV. OTHER INFORMATION - Continued

### A. Defined Benefit Pension Plan - Continued

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rate (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between arithmetic mean (aggressive) without an adjustment for time (conservative) and the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2023 are summarized in the following table:

		Long-Term
		Expected Real
	Target	Rate of Return
Asset Class	Allocation	(Arithmetic)
·		
Global Equity	35%	7.7%
Core Fixed Income	6%	4.9%
Non-Core Fixed Income	20%	8.7%
Other Public and Private Markets	12%	8.1%
Real Estate	12%	5.8%
Hedge Funds	5%	6.9%
Private Equity	10%	11.8%
Total	100%	

# Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that Member and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive Members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

2027	0		
Thereafter	0		

Notes to the Financial Statements - Continued September 30, 2023

### IV. OTHER INFORMATION - Continued

### **B.** Other Postemployment Benefits (OPEB)

Plan Description - The Texas Municipal Retirement System (TMRS) administers an optional death benefit plan known as the Supplemental Death Benefits Fund (SDBF), which operates like a group-term life insurance plan. This is a voluntary program in which participating member cities may elect, by ordinance, to provide supplemental death benefits for their active members with optional coverage for retirees. The death benefit for active members provides a lump-sum payment approximately equal to the member's annual salary (calculated based on the member's actual earnings, for the twelve-month period preceding the month of death). The death benefit for retirees is considered an OPEB and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan.

The participating city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is based on the mortality and service experience of all employees covered by the SDBF and the demographics specific to the workforce of the city. The funding policy for the SDBF is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. As such, contributions fund the covered active member and retiree deaths on a pay-as-you-go basis.

**Benefits Provided** - The plan provides a \$7,500 post-retirement death benefit to beneficiaries of service retirees and disability retirees of employers that have elected participation in the SDBF. The OPEB benefit is a fixed \$7,500 lump-sum benefit, and no future increases are assumed in the benefit amount.

The SDBF does not meet the requirements of a trust under Paragraph 4b of GASB 75, as the assets of the SDBF can be used to pay active SDBF benefits which are not part of the OPEB plan. The contributions for retiree SDBF coverage are assigned to the OPEB plan under GASB 75 and are used to determine the benefit payments shown in the changes in the total OPEB liability.

Benefit terms are established under the TMRS Act. Participation in the retiree SDBF is optional and the employer may elect to opt out of (or opt into) coverage as of Jan. 1 each year. The City's contribution rate for the retiree SDBF program is calculated annually on an actuarial basis, and is equal to the cost of providing a one-year death benefit equal to \$7,500.

**Employees Covered by Benefit Terms** - At the December 31, 2022 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	7
Inactive Employees Entitled to But Not Yet Receiving Benefits	3
Active Employers	22
Total	32

**Total OPEB Liability** - The City's total OPEB liability was measured as of December 31, 2022, and was determined by an actuarial valuation as of that date.

# Notes to the Financial Statements - Continued September 30, 2023

### IV. OTHER INFORMATION - Continued

# B. Other Postemployment Benefits (OPEB) - Continued

**Actuarial Assumptions** 

The total OPEB liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date December 31, 2022
Actuarial Cost Method Entry Age Normal

Amortization Method

Recognition of Economic/Demographic

Gains or Losses Straight-Line Amortization Over Expected Working Life

Recognition of Assumptions Changes or

Inputs Straight-Line Amortization Over Expected Working Life

Inflation 2.50%

Salary Increases 3.50% to 11.50% Including Inflation

Discount Rate 4.05% Retirees' Share of Benefit-Related Costs \$0

Administrative Expenses All administrative expenses are paid through the Pension Trust and

accounted for under reporting requirements under GASB Statement

No. 68.

Mortality Rates - Service Retirees 2019 Municipal Retirees of Texas Mortality Tables. The rates are

projected on a fully generational basis with Scale UMP.

Mortality Rates - Disabled Retirees 2019 Municipal Retirees of Texas Mortality Tables with a 4-year set-

forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis with Scale UMP to account for future mortality improvements

subject to the floor.

The TMRS SDBF is treated as unfunded OPEB plan because the SDBF trust covers both actives and retirees and the assets are not segregated for these groups. Under GASB 75 (Paragraph 155), the discount rate for an unfunded OPEB plan should be based on 20-year tax-exempt AA or higher municipal bonds. Therefore, a discount rate of 4.05% based on the 20 Year GO Index published by bondbuyer.com is used as of the measurement date of December 31, 2022. At transition, GASB 75 also requires that the total OPEB liability (TOL) as of the prior fiscal year end be estimated based on the 20 Year GO Index.

### Notes to the Financial Statements - Continued September 30, 2023

### IV. OTHER INFORMATION - Continued

# B. Other Postemployment Benefits (OPEB) - Continued

### **Annuity Purchase Rates**

The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. For determining the amount of the monthly benefit at the time of retirement for both healthy and disabled annuitants, the APRs until 2027 are being phased in based on a unisex blend of the RP-2000 Combined Healthy Mortality Tables with Blue Collar Adjustment for males and females with both male and female rates multiplied by 107.5% and projected on a fully generational basis with scale BB. The current table of APRs is explicitly valued through 2032, and then it is assumed the APRs and the valuation mortality assumptions will be consistent over time. For Members, a unisex blend of 70% of the male table and 30% of the female table is used, while 30% of the male table and 70% of the female table is used for beneficiaries.

### **Experience Studies**

Actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation.

# Changes in the Total OPEB Liability

# Changes in the Total OPEB Liability

Notes to the Financial Statements - Continued September 30, 2023

### IV. OTHER INFORMATION - Continued

### C. Self-Insurance

The City has entered into an interlocal participation agreement with the Texas Municipal League Workers' Compensation Joint Insurance Fund (the Fund). The Fund was created to provide workers' compensation benefits for its members pursuant to the provisions of Article 8309h, Texas Revised Civil Statutes Annotated. The Fund provides for the self-insurance of certain defined risks jointly among the Fund members. The Fund is required to provide stop-loss coverage; however, the amount of this coverage may be adjusted at the discretion of the Fund's Board of Trustees. The City's participation in the Fund is on a nonassessable basis. The City has no joint and several liability other than the maximum annual contribution required to be paid into the Fund. The City made contributions to the Fund based upon its standard annual premium which was computed using the Texas State Board of Insurance workers' compensation rates and adjusted by the City's experience modifier. Contributions are adjusted annually based upon the City's experience modifier; however, contributions are subject to adjustments on an interim basis if such adjustments are the result of changes mandated by state law.

The City has entered into an interlocal participation agreement with the Texas Municipal League Joint Self-Insurance Fund (the Fund). The Fund was created to provide liability and property coverage to its members pursuant to the provisions of Article 4413 (32i), Texas Revised Civil Statutes Annotated. The Fund provides for the self-insurance of certain defined risks jointly among the Fund members. The Fund provides stop-loss coverage at the discretion of the Fund's Board of Trustees. The City made contributions to the Fund based upon a rating system approved by the Fund's Board of Trustees. Contributions are adjusted annually based upon the City's loss experience. The City's participation in the Fund provides coverage for comprehensive general liability, comprehensive auto liability, and property coverage. The participation agreement is continuous but the agreement may be terminated by either party by giving a written sixty-day notice of intent to terminate.

The City has entered into an interlocal participation agreement with the Texas Municipal League Group Benefit Risk Pool (the Risk Pool). The Risk Pool was created to provide certain life, accident, and health coverage to employees of its members pursuant to the provisions of Article 4413 (32c), Texas Revised Civil Statutes Annotated. The Risk Pool provides for the self-insurance of certain defined risks jointly among the Risk Pool members. The Risk Pool provides stop-loss coverage at the discretion of the Risk Pool's Board of Trustees. The City made contributions to the Risk Pool based upon the plan adopted.

### D. Landfill Closure and Postclosure Care Costs

State and federal laws and regulations require the City to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these landfill closure and postclosure costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$81,859 reported as landfill closure and postclosure liability at September 30, 2023, represents the cumulative amount reported to date based on the Texas Commission on Environmental Quality's financial assurance requirements.

The City is required by state and federal laws and regulations to provide annually assurance that financial resources will be available to provide for closure, postclosure care, and remediation or containment of environmental hazards. The City has complied with this requirement by obtaining a letter of credit from a bank.

### E. Joint Venture

The landfill is operated jointly by County of Martin and the City of Stanton. The County reimburses the City for one-half of the landfill's operating expenses on a monthly basis, and this is reflected in the Water and Sewer Fund.

During the 2023 fiscal year the City purchased a new compactor and tractor for use in the landfill. These purchases are further described in Note III, G. of the financial statements.

### IV. OTHER INFORMATION - Continued

# F. Adjustments to Net Position/Fund Balances

The financial statements reflect the following prior period adjustments:

	Net Position Statement of Activities	Fund Balances Governmental Funds	Net Position Proprietary Funds				
General Fund Prior Year's VIT Payments	\$ 4,450	\$ 4,450	\$ 0				
Proprietary Fund Accounts Receivable Adjustment	(13,514)	0	(13,514)				
Totals	\$ (9,064)	\$ 4,450	\$ (13,514)				

# **G.** Related-Party Transactions

The City purchased three vehicles and paid for vehicle maintenance from a business owned by a Council member. The total of these payments was \$1,674.

# H. Subsequent Events

The City's management has evaluated subsequent events through April 2, 2024, the date which the financial statements were available for issue.

<sup>\*</sup>The Supplemental Death Benefit Fund is considered to be an unfunded OPEB plan under GASB 75. Because of this benefit payments are treated as being equal to the employer's yearly contributions for retirees.

Note: GASB Codification, Vol. 2, P52.139 states that the information on this schedule should be determined as of the measurement date of the plan.

As required by GASB 75, this schedule will be built prospectively as the information becomes available until 10 years of information is presented.

# Notes to the Required Supplementary Information September 30, 2023

# Note A - Net Pension Liability

# Changes in Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

# Changes of Assumptions

Valuation Date Actuarially determined contribution rates are calculated as of December 31 and

become effective in January 13 months later.

# Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method Entry Age Normal

Amortization Method Level Percentage of Payroll, Closed

Remaining Amortization Period 21 Years (Longest Amortization Ladder)

Asset Valuation Method 10-Year Smoothed Market, 12% Soft Corridor

Inflation 2.50%

Salary Increases 3.50% to 11.50% Including Inflation

Investment Rate of Return 6.75%

Retirement Age Experience-based table of rates that are specific to the City's plan of benefits. Last

updated for the 2019 valuation pursuant to an experience study of the period 2014-

2018.

Mortality Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are

projected on a fully generational basis with Scale UMP.

Pre-retirement: PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. The rates are projected on

a fully generational basis with Scale UMP.

# Notes to the Required Supplementary Information - Continued September 30, 2023

### Note B - Total OPEB Liability

# Changes in Benefit Terms

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

# Changes of Assumptions

Valuation Date December 31, 2022
Actuarial Cost Method Entry Age Normal

Amortization Method

Recognition of Economic/Demographic

Gains or Losses Straight-Line Amortization Over Expected Working Life

Recognition of Assumptions Changes or

Inputs Straight-Line Amortization Over Expected Working Life

Inflation 2.50%

Salary Increases 3.50% to 11.50% Including Inflation

Discount Rate 4.05% Retirees' Share of Benefit-Related Costs \$0

Administrative Expenses All administrative expenses are paid through the Pension Trust and

accounted for under reporting requirements under GASB Statement

No. 68.

Mortality Rates - Service Retirees 2019 Municipal Retirees of Texas Mortality Tables. The rates are

projected on a fully generational basis with Scale UMP.

Mortality Rates - Disabled Retirees 2019 Municipal Retirees of Texas Mortality Tables with a 4-year set-

forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis with Scale UMP to account for future mortality improvements

subject to the floor.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and City Council City of Stanton P.O. Box 370 Stanton, TX 79782-0370

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Stanton, Texas, as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated April 2, 2024.

### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Stanton's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Stanton's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Stanton's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

# **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Stanton's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Honorable Mayor and City Council Page 2

# **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
